

Press Release

ACT Sustainability Certification for Eppendorf ULT freezers

Hamburg, July 2020

As further step into the green future, My Green Lab, a global non-profit organization promoting sustainability in the Life Science Industry through Green Lab Certification and validation of sustainable and energy efficient equipment has certified several Eppendorf ULT freezers (-80°C) to ACT, the Environmental Impact Factor label.

The Eppendorf ULT freezers are the first freezers worldwide being validated by My Green Lab:

The CryoCube® F570h, CryoCube FC660h, CryoCube F740hi, and CryoCube F740hiw are now validated and certified based on the ACT label in the US, UK and EU market. The holistic scoring evaluates a number of environmental factors across the lifecycle of an instrument. Power consumption is based on external testing at ENERGY STAR® with US-voltages. These ULT freezers are also certified by the ENERGY STAR regarding their sustainability footprint.

About Eppendorf:

Eppendorf is a leading life science company that develops and sells instruments, consumables, and services for liquid handling, sample handling, and cell handling in laboratories worldwide. Its product range includes pipettes and automated pipetting systems, dispensers, centrifuges, mixers, spectrometers, and DNA amplification equipment as well as ultra-low temperature freezers, fermentors, bioreactors, CO2 incubators, shakers, and cell manipulation systems. Consumables such as pipette tips, test tubes, microplates, and single-use bioreactor vessels complement the range of highest-quality premium products.

Eppendorf products are most broadly used in academic and commercial research laboratories, e.g., in companies from the pharmaceutical and biotechnological as well as the chemical and food industries. They are also aimed at clinical and environmental analysis laboratories, forensics, and at industrial laboratories performing process analysis, production, and quality assurance.

Eppendorf was founded in Hamburg, Germany in 1945 and has more than 3,600 employees worldwide. The company has subsidiaries in 26 countries and is represented in all other markets by distributors.
