Eppendorf Award 2022: Call for Entries

Hamburg, October 2021

The Eppendorf Award for Young European Investigators, endowed with 20,000 EUR, is granted annually to an early career scientist in Europe for outstanding contributions to biomedical research. It has been awarded, in partnership with Nature, since 1995.

Researchers in Europe up to 35 years with an advanced degree in the field of biomedical research can apply online between October 1, 2021, and January 15, 2022, at www.eppendorf.com/award/application.

The winner is selected by an independent expert committee chaired by Reinhard Jahn (Max Planck Institute for Biophysical Chemistry, Göttingen, Germany).

Full details on the Eppendorf Award for Young European Investigators, the selection criteria, and previous winners can be found at www.eppendorf.com/award.

About Eppendorf:

Eppendorf is a leading life science company that develops and sells instruments, consumables, and services for liquid handling, sample handling, and cell handling in laboratories worldwide. Its product range includes pipettes and automated pipetting systems, dispensers, centrifuges, mixers, spectrometers, and DNA amplification equipment as well as ultra-low temperature freezers, fermentors, bioreactors, CO2 incubators, shakers, and cell manipulation systems. Consumables such as pipette tips, test tubes, microplates, and single-use bioreactor vessels complement the range of highest-quality premium products.

Eppendorf products are most broadly used in academic and commercial research laboratories, e.g., in companies from the pharmaceutical and biotechnological as well as the chemical and food industries. They are also aimed at clinical and environmental analysis laboratories, forensics, and at industrial laboratories performing process analysis, production, and quality assurance.

Eppendorf was founded in Hamburg, Germany in 1945 and has about 4.500 employees worldwide. The company has subsidiaries in 26 countries and is represented in all other markets by distributors.
