

## Press Release

# The new Eppendorf Tube and Cuvette Racks

Hamburg, July 2017

This new product line combines optimized functionality and high robustness with an attractive design. The Eppendorf Tube and Cuvette Racks ensure user-friendly and efficient handling of clearly arranged samples. Their wavelike design supports clear visibility and allocation of vessels even when they are placed in different rows. All racks are stackable to save lab space when not in use. Six different formats offer the optimal solution and perfect fit for all tubes and cuvettes commonly used in laboratories.

### About Eppendorf AG:

Eppendorf is a leading life science company that develops and sells instruments, consumables, and services for liquid handling, sample handling, and cell handling in laboratories worldwide. Its product range includes pipettes and automated pipetting systems, dispensers, centrifuges, mixers, spectrometers, and DNA amplification equipment as well as ultra-low temperature freezers, fermentors, bioreactors, CO<sub>2</sub> incubators, shakers, and cell manipulation systems. Consumables such as pipette tips, test tubes, microliter plates, and single-use bioreactor vessels complement the range of highest-quality premium products.

Eppendorf products are most broadly used in academic and commercial research laboratories, e.g., in companies from the pharmaceutical and biotechnological as well as the chemical and food industries. They are also aimed at clinical and environmental analysis laboratories, forensics, and at industrial laboratories performing process analysis, production, and quality assurance.

Eppendorf was founded in Hamburg, Germany in 1945 and has more than 3,000 employees worldwide. The company has subsidiaries in 26 countries and is represented in all other markets by distributors.
